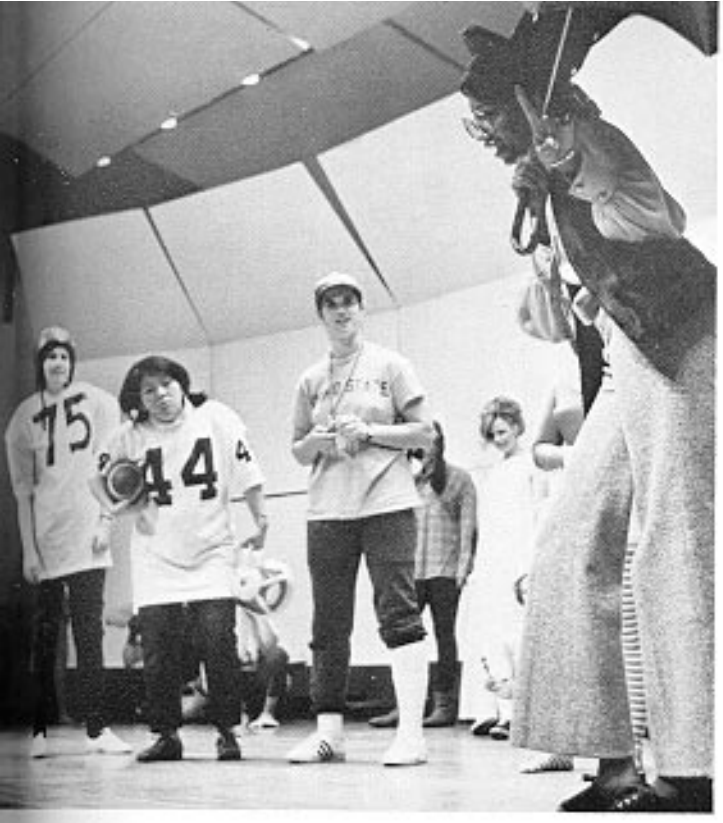
All the organizations, sororities, fraternities, and dorms put in many hours preparing their floats. No matter how far in advance the masterpiece is started, the last week and most particularly the last night is always a madhouse. But don't be totally fooled by all this hard work, they have lots of "fun" too.



Homecoming Skit Night is fun night on campus. The costumes are silly, the skits don't make much sense and the sororities must sit back and take the fraternities "jokes." It is also the night of the Queen Coronation which takes place immediately preceding the skits by the various organizations. This year the theme for Homecoming and the skits was "The Wonderful World of Walt Disney."

# Lawn Displays

Variety seems to be the key word in describing the various lawn displays. The lawn displays are one part of Homecoming which adds life and color to the lower campus area. All the displays are judged and trophies as well as Sweepstakes points are awarded to the winners in each division.
