## EDITORIAL FOREWORD

THE BOARD OF EDITORS of the "Wickiup" makes its bow in academic and literary Society. We bespeak from our friends kind judgment and just appreciation of our work, which, while it may show youth and inexperience, is our own. We gratefully acknowledge the assistance of the Faculty Committee in editing the book. Whatever success this number attains is due to the efficient work of all those interested. Like Touchstone, we can say, "It's an ill favored thing, sir, but mine own."
