To get started with PubMed, enter one or more search terms.

Search terms may be topics, authors or journals.

The NIH Public Access Policy May Affect You

Does NIH fund your work?

Then your manuscript must be made available in PubMed Central

How?

If you publish in one of these journals, they will take care of the whole process.

If you publish anywhere else, deposit the manuscript in PubMed Central via one of the options described at publicaccess.nih.gov.

Note: Other funding organizations, including HHMI, Wellcome Trust and the MRC also require papers to be made freely available through PMC.

PubMed is a service of the U.S. National Library of Medicine that includes over 18 million citations from MEDLINE and other life science journals for biomedical articles back to 1948. PubMed includes links to full text articles and other related resources.
CINAHL with Full Text

- CINAHL (Cumulative Index to Nursing and Allied Health Literature) is an authoritative resource for nursing and allied health. It contains journals, book reviews, dissertations, proceedings, etc.
- It covers more than 2,737 journals and provides full text for more than 600 journals dating back to 1981. Eight users has been purchased.
- It includes 24 journals about health and medical law.
